

## SolarMax Energy Systems

# Solar panels polycrystalline photovoltaic panels

The image shows a house with a large array of polycrystalline photovoltaic solar panels installed on its roof. In the foreground, a SolarMax Energy System battery unit is displayed. The unit is a tall, white, rectangular cabinet with multiple horizontal compartments, each featuring a small digital display and control buttons. The background is a scenic view of a field with mountains in the distance.

**easy to install and use**

**World wide Products**

**faster charging and discharging**

**Multiple protection with alarm systems**

**Can save energy**

the battery capacity can be increased freely and flexibly according to the situation of home use.

Rechargeable lithium batteries use safe LiFePO<sub>4</sub>
