

## SolarMax Energy Systems

# Solar photovoltaic power generation system in Romania

## Overview

---

Solar power in Romania had an installed capacity of 1,374 (MW) as of the end of 2017. The country had in 2007 an installed capacity of 0.30 MW, which increased to 3.5 MW by the end of 2011, and to 6.5 MW by the end of 2012. However, the record year of 2013 was an exception, and new installation fell back from 1,100 MW to a moderate level of 69 MW in 2014.
