

## SolarMax Energy Systems

# Solar power supply system communication module

## Overview

---

By connecting a solar power supply to a GPRS module, users can remotely oversee energy production, consumption patterns, and battery status. The functionality of GPRS allows for two-way communication, enabling not just monitoring but also control capabilities.

## Solar power supply system communication module

---

### How to connect solar household power supply to GPRS

By connecting a solar power supply to a GPRS module, users can remotely oversee energy production, consumption patterns, and battery ...
