

SolarMax Energy Systems

Solar pump prices in Sri Lanka

Overview

What is a solar water pump?

Solar pumps are water pumping systems that operate solely on solar energy. They utilize photovoltaic (PV) panels to convert sunlight into electricity, which powers the pump to lift and distribute water from the source to the desired location.

Who makes the best solar panels in Sri Lanka?

Hayleys Solar has partnered with leading tier-1 solar panel manufacturers around the world to provide only the best solar panels in Sri Lanka. All our solar system projects are fitted with durable and conversion-efficient solar panels to ensure that our customers receive long-lasting solar systems.

How much does electricity cost in Sri Lanka?

The price of electricity for households in Sri Lanka is 0.048 U.S. Dollar per kWh, and for businesses it is 0.103 U.S. Dollar per kWh (September 2022), including all components of the electricity bill such as the cost of power, distribution, and taxes.

Why should you choose a solar pump?

Whether you are a farmer seeking irrigation solutions, a rural community in need of reliable water supply, or an Eco-conscious individual looking to reduce your carbon footprint, our Solar Pumps offer a cleaner, greener, and more cost-effective alternative.
