

## SolarMax Energy Systems

# Solar system home prices in Norway

## Overview

---

What are the new solar rebates in Norway?

Norway's clean energy agency Enova will increase the maximum PV system size eligible for rebates from 15 to 20 kW and the maximum subsidy amount from 1,250 to 2,000 NOK (\$226.7) per kW installed. In addition, new subsidies of up to 10,000 NOK will be introduced for energy management systems that are often installed alongside solar arrays.

How to find the best solar panel installers in Norway?

Check possible solutions with [localmarket.no](https://localmarket.no). Compare prices from local certified solar panel installers in Norway. We find the best and cheapest qualified installer in your area, while offering the best solar warranty on the market and the best deals with the highest quality. Switch to GREEN ENERGY with the best warranty on the market.

Can you collect solar energy in Norway?

For example, the collection of solar energy was once regarded as gratuitous – especially in parts of the country that had a surplus of energy. Most homes in Norway are now equipped with smart meters allowing you to harvest solar energy, store it, and even sell it back to energy companies.

How much solar power does Norway have in 2020?

In 2020, the newly installed PV capacity was around 31.7MW and, in the previous year, new solar arrays totaled 51MW. Norway had added 23.5MW of solar in 2018; 18MW a year earlier, and 11MW in 2016. This content is protected by copyright and may not be reused.

How can I design my own Solar System?

Look up the address for the installation and design your own solar system in our online drawing program. Receive a quote and order the solar system you have designed yourself, from a local company. We have a dealer network

throughout Norway that installs solar systems where you live.

How do I order a solar system?

Register and request your local installation supplier, get the supplier's price into your own user account and order your facility online. Clarify the delivery time and assembly time with your electrician. What we can do for you?

Look up the address for the installation and design your own solar system in our online drawing program.

- Efficient Higher Revenue**
  - Max Efficiency 97.5%
  - Max PV Input Voltage 600V
  - 150% Peak Output Power
  - 2 MPPT Trackers, 150% DC Input Overvoltage
  - Max PV Input Current 16A, Compatible with High-Power Modules
- Intelligent Simple O&M**
  - IP66 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
  - Plug & Play, EPS Switching Under 10ms
  - Compatible with Lead-Acid and Lithium Batteries
  - Max. 6 units Inverters Parallel
  - ATC Function (Optional): when an arc fault is detected the inverter immediately stops operation
