

SolarMax Energy Systems

Solar temperature control system company

Overview

The SPP iSolar BX is a multi-function solar controller with a number of add-on functions and relay controls. The iSolar BX solar controller can be used to control your solar hot water or solar space heating system.

Solar temperature control system company

How to set up the solar temperature control valve

A solar temperature control valve is a device designed to regulate the flow of heated water within a solar heating system. The primary function of ...
