

SolarMax Energy Systems

South America Photovoltaic Power Generation 100kw Off- Grid Inverter

Overview

What is a 100 kW solar power inverter?

This solar power inverter with low frequency 50Hz/ 60Hz, 100kW high power output rating, no battery storage system, transforms 480V DC to 400V/ 460V AC (input and output voltage are customizable), high efficiency and stable performance. 100 kW off grid pv inverter is widely used in CNC machine, emergency car and compressor.

How much does a 100kW solar power plant cost?

100kW solar power plant prices US\$75,252 – Gel battery design. (Valid for 30 days). Note: If you need a quote for lithium battery design, please contact solar@pvmars.com to obtain it. Below are the product parameters and pictures of the 100kw solar plant. Strong anti-cracking, heat spot protection.

How much power does a 100kW solar panel generate?

Based on the average lighting time of about 4-6 hours, a 100kw solar panel can generate 392kWh-588kWh per day, about 17,644kWh per month, and about 211,723kWh per year. Solar panels generate power related to the amount of sunshine in your local area. Click on this article to learn more. This is laboratory data and may deviate from actual use.

How can pvmars provide a complete 100kW solar power plant solution?

The premise of providing a complete 100kw solar power plant solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage range, and other data. PVMARS's engineering team can provide a complete solar system (off-grid or mini-grid solution).

What is the battery capacity of pvmars 100kW solar plant?

The gel battery of this 100kw solar plant is designed with 180pcs 2v1000ah batteries with a total capacity of 360kWh. 2.33V/Cell (-4mV/'C/Cell) Max.

Charge Current:150A In addition, PVMARS also offers lithium battery options.
