

## SolarMax Energy Systems

# Specifications and dimensions of photovoltaic panel silicon wafers

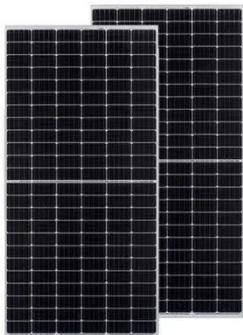

## Overview

---

Before year 2010, monocrystalline silicon wafers were dominated by 125mm x 125mm width (165mm silicon ingot diameter) . By the end of year 2013, a number of producers jointly issued the standards for M2 p-Type mono wafers (205mm diameter) and M2 p-Type mono wafers (210mm diameter).

## Specifications and dimensions of photovoltaic panel silicon wafers

---

### Solar Cells: Size, Process and Technology Explained

Solar Cells: Size The core of photovoltaic solar panels solar cells, divided into monocrystalline solar cells and polycrystalline solar cells, because of efficiency bottlenecks, polycrystalline ...
