

SolarMax Energy Systems

Specifications of 60W photovoltaic panels

Overview

What is a 60W solar panel?

Its highly sensitive light source can charge your mobile power supply even under natural light or cloudy conditions. Providing a more stable output of up to 18V, the 60W solar panel is perfect for a variety of devices and applications. The solar panel is perfect for travelling or going on trips in the wilderness where portable power is needed.

What is a 60W foldable solar panel?

Contact us directly. The 60W Foldable Solar Panel is designed to charge small to medium electronic devices using DC power or one of many available accessories. Easy to Use - Unfold the panel and start charging in seconds. Durable - marine grade connectors, weather-resistant fabric, military tested.

How much does a pv60l weigh?

Equipped with multiple DC output ports, the PV60L charges your phone, tablet, camera, and other gadgets simultaneously, ideal for camping, hiking, or road trips where every device matters. Weighing just 4.8 lbs, the PV60L is a super travel-friendly companion that you can grab and go.

What is a pv60l battery?

Designed to charge your devices efficiently while you're on the go, the PV60L is your perfect pal for outdoor adventures. With a lightweight build, durable ETFE material, and IP65 splash resistance, it ensures everlasting power supply through your journey.

Why should you choose a pv60l?

The PV60L boasts an impressive 23.4% high conversion rate, which means more power captured from the sun and less wasted energy, ensuring you get the most out of every hour of daylight, even in less-than-ideal conditions. Why choose between devices when you can power them all at once?
