

SolarMax Energy Systems

Swedish photovoltaic project with energy storage

Overview

Halmstad, Sweden, 27 February 2025 – In a groundbreaking step towards a more sustainable and resilient energy future, one of Sweden's first hybrid solar parks has been successfully deployed in Halmstad. Sungrow - the leading global supplier of renewable energy solutions – was a key part of this milestone project, providing the inverters and Energy Storage System (ESS).

Swedish photovoltaic project with energy storage

Co-located solar park for a resilient grid completed in Sweden

By co-locating PV technology with modern battery energy storage, this project is an example of the interplay between renewable energies, grid stability and high energy efficiency ...
