# **Telecom 5g base station bidding**

## Overview

---

How many 5G base stations will China have in 2023?

The successful firms were announced last Friday, about a month after China Mobile solicited equipment suppliers to bid for two contracts for the installation of a total of 86,980 5G base stations between 2023 and 2024, adding to China's existing 5G network, considered the world's largest.

What are the biggest 5G base station contracts awarded this year?

The China Mobile tender represents the biggest 5G base station contracts awarded this year.

Which telco will supply 5G base stations in 2023 & 2024?

Huawei Technologies has secured a major contract that will see it supply over half of the 5G base stations for telco China Mobile between 2023 and 2024. In total, Huawei has won 52 percent of China Mobile's 5G base station work, as part of the largest portion of the contracts put out for tender this year, according to Yicai Global.

How much will Huawei buy China mobile's 5G base station?

Huawei secured 52 per cent of China Mobile's 5G base station work, the largest portion of the contracts put out for tender this year. The deal would involve the sale of 45,426 5G base stations worth about 4.1 billion yuan (US\$574 million), according to calculations by the South China Morning Post using bid details published by China Mobile.

How much did ZTE win a 5G bid?

ZTE's winning bid amount exceeded 2.07 billion yuan (\$280 million). The expansion and centralized procurement of self-built 5G 2.6GHz/4.9GHz base stations. The telecom company co-built and shared 5G 700MHz base station equipment (using a single source method), with a total scale of more than 412,700 stations, and Huawei won the bid.

Which companies have been awarded a 5G contract?

Smaller contracts were also awarded to Datang Mobile Communications Equipment, Ericsson, and Nokia Shanghai Bell. China Mobile plans to operate more than 1.6 million 5G base stations this year, increase its number of cloud servers by more than 240,000 units, and add 40,000 external data center racks.
