

SolarMax Energy Systems

The first batch of solar photovoltaic modules

Overview

Charles Fritts installed the first solar panels on New York City rooftop in 1884. Courtesy of John Perlin Take a light step back to 1883 when New York inventor Charles Fritts created the first solar cell by coating selenium with a thin layer of gold.

The first batch of solar photovoltaic modules

Photovoltaics: Basic Principles and Components

Introduction to PV Technology Single PV cells (also known as "solar cells") are connected electrically to form PV modules, which are the building blocks of PV systems. The module is ...
