Tuvalu Distributed Photovoltaic Energy Storage Project

Overview

What is the Tuvalu solar power project?

The Government of Tuvalu worked with the e8 group to develop the Tuvalu Solar Power Project, which is a 40 kW grid-connected solar system that is intended to provide about 5% of Funafuti 's peak demand, and 3% of the Tuvalu Electricity Corporation's annual household consumption.

What is ADB's new solar project in Tuvalu?

“The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support. It is ADB’s first for Tuvalu’s energy sector,” the ADB said in a statement. “The project also installed solar PV in the outer islands of Nui, Nukufetau, and Nukulaelae.”.

What is Tuvalu doing with the ADB?

Tuvalu, an island country midway between Hawaii and Australia, has commissioned a new solar and storage project with the ADB, featuring a 500 kW on-grid solar rooftop array and a 2 MWh BESS in the capital, Funafuti. “The project is under the Pacific Renewable Energy Investment Facility and has a \$6 million support.

How can Tuvalu improve its energy security?

to enhance Tuvalu’s energy security by reducing its dependence on imported fuel for power generation and by improving the efficiency and sustainability of its elec-tricity system.

How much energy does Tuvalu use a year?

Like many Small Island Developing States (SIDS), Tuvalu has been heavily reliant on imported fuel for its diesel-based power generation system. Through this new FSPV system 174.2 megawatts per hour of electricity will be generated each year, meeting two percent of Funafuti’s annual energy demand.

How much does it cost to install solar panels in Tuvalu?

Due to Tuvalu's limited land area, the solar panels will run along the landing strip at Tuvalu's airport alongside the soccer field. The contract price for the solar PV facility was about \$5 million, with the remaining funding provided by IDA.

Tuvalu Distributed Photovoltaic Energy Storage Project

ADB commissions 2 MWh battery with solar array in Tuvalu

Tuvalu, an island nation midway between Hawaii and Australia, has commissioned a new solar-plus-storage project with the ADB, featuring a 500 kW, on-grid solar rooftop array ...
