# Türkiye Solar Photovoltaic Panel Market Quotes

## Overview

---

What is the growth rate of Turkey solar PV panels market?

A compound annual growth rate of 12.1% is expected of Turkey solar pv panels market from 2024 to 2030. The Turkey solar pv panels market generated a revenue of USD 1,500.8 million in 2023 and is expected to reach USD 3,329.1 million by 2030. The Turkey market is expected to grow at a CAGR of 12.1% from 2024 to 2030.

How many solar panels are produced in Türkiye?

With solar PV installations exceeding 9 GW in less than 10 years, the PV panel production market has also expanded. There are more than 30 solar module manufacturers in Türkiye which have a total module production capacity of over 12 GW per year.

Is solar power a viable solution to Turkey's energy crisis?

Fluctuations in global energy prices and geopolitical tensions, coupled with Turkey's heavy reliance on imported fossil fuels, pose significant risks to the country's energy stability. Solar power offers a viable solution to these challenges by providing a local, sustainable, and inexhaustible energy source.
