

SolarMax Energy Systems

UAE inverter photovoltaic project

Overview

Who is developing Al Dhafra solar photovoltaic (PV) Independent Power Producer (IPP) project?

Abu Dhabi National Energy Company (TAQA) and Masdar – alongside partners EDF and JinkoPower – are currently developing the Al Dhafra Solar Photovoltaic (PV) Independent Power Producer (IPP) project.

Who owns Abu Dhabi power plant?

The project is developed under a public-private partnership (PPP) scheme and is jointly owned by Abu Dhabi National Energy Company (TAQA, 40%), Masdar (20%), EDF Renewables (20%), and Jinko Power (20%). The construction of the power project began in 2020 and the plant was commissioned in June 2023.

What technologies will be used in a solar power plant?

This Phase will use three hybrid technologies: 600MW from a parabolic basin complex (three units of 200MW each), 100MW from the world's tallest solar power tower at 262.44 metres (based on Molten Salt technology), and 250MW from photovoltaic solar panels.

When did a GW power plant close in Abu Dhabi?

Financial close of the project was achieved in December 2020 and the site became fully operational in June 2023. The record-breaking project, located approximately 35 kilometers from Abu Dhabi city, has a capacity of 2 gigawatts (GW) and supplies power to the plant's off-taker, Emirates Water and Electricity Company (EWEC).

How many photovoltaic modules will be installed?

It will involve installing more than four million photovoltaic (PV) modules with a total output of more than 2100 MWp along with a new 400 kV substation over an area of around 20 square kilometers.

How is Dubai shaping the future of energy?

DEWA is anticipating and shaping the future of energy using innovative disruptive technologies in the production, transmission, and distribution of electricity and water. This will transform Dubai into a global centre for clean energy and green economy.

UAE inverter photovoltaic project

2 GWp Al Dhafra solar photovoltaic plant, United Arab Emirates

The Al Dhafra solar photovoltaic power plant in the Emirate of Abu Dhabi, with an investment volume of around one billion US dollars, is to supply electricity to the national energy provider ...
