

SolarMax Energy Systems

UK rooftop photovoltaic energy storage prices

Overview

This table contains information on the cost per kW of solar PV installed by month.

As of August 2025, for a 3-bedroom house in the UK: Solar panels cost around £9,800 for a 4.5kW system (including installation and a storage battery). You'll pay 0 per cent VAT on the cost of your solar panels and installation. How much does solar battery storage cost in the UK?

It also touches on the cost of solar battery storage in the UK, which, according to Solar Guide, ranges from £1,200 to £6,000. Expensive?

Perhaps it's a stretch, but shaving off a few pounds from your energy bill, might just be worth it!.

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 – £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2025, the price of solar panels in the UK can vary depending on several factors.

How much does a 10kW solar battery cost in the UK?

The average price of a 10kW solar battery in the UK is approximately £8,000. Are solar batteries worth the cost in 2025?

For larger properties, battery storage generally makes sound economic sense. However, for smaller homes, there are several factors to consider when determining whether it is economically viable.

How much does a 4KW Solar System cost?

A typical 4kW solar panel system for 2-3 bedroom houses costs £6,600 - £8,100 with installation. Added together, the total cost of solar panels and a battery in the UK is £14,900 - £16,400. A 4kW system breaks even in 6 - 7 years, with annual electricity cost savings of between £765 and £1,530.

Can you buy a solar battery in the UK?

The most common (and expensive) solar battery you can buy is Lithium-ion. Cheaper lead-acid models are available, but they are less efficient. Are there government grants for solar batteries in the UK?

Several grants and schemes are on offer to help you make your home greener, including the Energy Company Obligation (ECO) scheme.

How do roof panels work in the UK?

Most UK homes have tiled roofs, which are simple to fit panels on. If the material makes it harder to install, then this will likely increase your costs. Roof angle (degrees) – The angle of your roof affects how well your panels work. In the UK, a 30–40° angle is best for generating energy.
