

SolarMax Energy Systems

Ukrainian companies manufacturing solar panels

Overview

Could Ukraine become the largest producer of solar energy in Europe?

Ukraine has vast territories suitable for the installation of solar power plants and favourable climatic conditions. The country could become one of the largest producers of solar energy in Europe. The European Commission has conducted a study of the needs for grid development and renewable energy in Central and South-Eastern Europe.

Why should you invest in solar energy in Ukraine?

Ukraine actively embraces digital technologies in the field of solar energy, ensuring effective and automated system operations. Ukrainians are not afraid of working beyond the norm and thus operate at a rapid pace.

Why should Europe invest in Ukraine?

Ukrainian installation companies can help Europe rapidly increase its solar energy capacity and replace Russian fossil fuels. At the same time, Ukraine requires European investments and technologies, and this need will significantly grow when the active reconstruction of our country begins", Artem Semenyshyn of ASEU said.
