

SolarMax Energy Systems

Ukrainian energy storage container quotation

Overview

How important are energy storage systems in Ukraine?

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said energy minister Svitlana Grinchuk. (\$1 = 0.8554 euros).

How big is Ukraine's gas storage?

The highest level of gas stock and its third part is done by non-resident customers Ukraine's vast storage facilities are not just an asset for the country itself, but rather for the entire continent. The storage system is the world's third biggest by capacity – behind only the United States and Russia – can store over 30 bcm.

Why are Ukrainian gas payers interested in storing reserves?

Ukrainian payers are interested in storing reserves to secure gas supplies for households (and hedge against sharp market turns in price), while traders can use them both for storage and to wait for better market conditions – allowing them to see gas at a higher price.
