

**SolarMax Energy Systems**

# **Vanuatu Base Station Energy Management System Energy Storage**

## Overview

---

Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Will solar power boost Vanuatu's energy independence and climate resilience?

The project aims to support the use of solar power and battery storage on the islands of Efate and Tanna, boosting Vanuatu's energy independence and climate resilience. New Zealand's Deputy Prime Minister and Minister for Foreign Affairs, Winston Peters, confirmed the country's commitment during a press conference held in Port Vila on Wednesday.

Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.

Does New Zealand support Vanuatu's climate and energy priorities?

The New Zealand Government is increasing its support for Vanuatu's climate and energy priorities through a major investment in the Renewable Energy Solar and Storage on Efate and Tanna (RESSET) project. This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity.

## Vanuatu Base Station Energy Management System Energy Storage

### Vanuatu energy storage power station project epc

Fluence Energy, an energy storage solutions provider, has been selected by Origin Energy to supply the 300MW/650MWh battery system for the Mortlake power station. The company will ...
