

SolarMax Energy Systems

Vanuatu Mobile Energy Storage Project

Overview

Does Vanuatu have a low electricity access rate?

Vanuatu currently has one of the lowest electricity access rates in the world. Under the RESSET project, New Zealand will serve as the lead donor, providing the majority of funding for the installation of solar arrays and battery storage systems on Efate, near Port Vila, and the island of Tanna.

Does Vanuatu need electricity?

This initiative responds directly to Vanuatu's national climate goals and energy needs by improving access to clean and reliable electricity. Vanuatu currently has one of the lowest electricity access rates in the world.

Will Vanuatu's remote off-grid communities get better access to water?

Over 84,000 people across Vanuatu's remote off-grid communities will soon have better access to water, healthcare and education services, thanks to the country's first two REnew Pacific projects, announced today.

Vanuatu Mobile Energy Storage Project

Largest Solar Farm in Vanuatu to be deployed in Efate

The project underscores the Vanuatu government's commitment to decarbonising the electricity supply and aligning with international climate ...
