

SolarMax Energy Systems

Vietnam Battery Energy Storage Solution

Overview

Why should Vietnam invest in a lithium battery?

The declining cost of lithium battery cells, coupled with technological advancements, has made BESS increasingly affordable and accessible, according to Contemporary Amperex Technology, the world's largest battery manufacturer. Vietnam should capitalise on this trend to attract investment, create green jobs, and enhance energy security.

How can Bess help Vietnam achieve energy security & sustainability?

As Vietnam charts its path towards energy security and sustainability, the integration of BESS emerges as a critical enabler of this transition. By embracing BESS, Vietnam has the potential to lead the way in clean energy innovation, fuelling economic growth while safeguarding the planet for future generations.

What is EVN's 50 MW battery energy storage system?

EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. Vietnam is the fastest-growing energy market in Asia, according to the International Trade Administration. The government anticipates a 10-12% annual surge through 2030 in the nation's power consumption.
