

## SolarMax Energy Systems

# Vietnam Container Energy Storage System

## Overview

---

Can battery energy storage systems improve power system flexibility?

Recently, Vietnam's National Power Transmission Corporation (EVNNPT) shared that it is looking into Battery Energy Storage Systems (BESS) among several technology options as an appropriate solution. This technology can enhance power system flexibility and enable high levels of renewable energy integration.

Does Vietnam have a power shortage?

Vietnam's total power demand is expected to grow 10% annually during the period 2021-2024, and power shortages are expected to increase in different regions of the country.

What is the growth rate of energy storage industry?

It is forecast that the compound annual growth rate (CAGR) of this sector will maintain around 6.9% to the size of the market. This market will reach 500 billion USD by 2025. Large-scale energy storage technologies will mainly be hydroelectricity and chemical batteries.
