

SolarMax Energy Systems

Villa photovoltaic panel equipment manufacturer

Overview

Do you offer a complete set of PV machines?

We offer a complete set of PV machines covering all solar manufacturing processes. We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements.

What is Yili PV solar string layup system?

uses an advanced and high-accuracy six-axis robot combined with a high-efficiency automatic solar string layup system independently developed by YiLi Pv to meet customers' automatic layout needs for different solar cell strings. At the same time, it has a highly cost-effective advantage. 1. Use visual positioning and String EL detection. 2.

How does Yili PV work?

YiLi Pv uses vacuum pumps and thermal oil heating systems imported from Germany, and it cooperates with YiLi Pv's self-developed solar laminator automatic temperature control recognition system and AI automatic adjustment parameters. Solar panels laminated by YiLi Pv laminator can accurately meet the process requirements of raw materials.

How to start a photovoltaic business?

You can start your photovoltaic business with our 5-15MW manual production line. YiLi Pv focuses on overseas markets and has established after-sales offices in the United States and Ahmedabad, India. Our company directly employs six experienced Indian after-sales engineers to provide local after-sales services for our machines exported to India.

Villa photovoltaic panel equipment manufacturer

Home

YiLi Pv has an excellent raw material supplier system, including solar cells, solar ribbons, Eva, back sheets, and solar glass. This can help customers purchase solar module raw materials of ...
