What are the energy storage charging stations in Spain

Overview

How many EV charging stations are there in Spain?

List of charging stations for electric vehicles in Spain. If you're an EV driver looking for EV chargers in Spain, you're in the right place. Electromaps database contains 16,969 charging stations available throughout the country, making it easier for drivers to power their vehicles on the go.

Where are EV chargers available in Spain?

Canary and Balearic Islands: While some progress has been made, these regions lag behind mainland Spain in terms of widespread access to EV chargers, particularly fast-charging stations. The Spanish government, as part of its green energy initiative, plans to significantly expand EV charging infrastructure.

Does Mercadona have EV charging stations?

Mercadona: As one of Spain's largest supermarket chains, Mercadona has been gradually rolling out EV charging stations across its stores. While still in its early stages, the company has plans to expand its charging network to more locations nationwide.

Where can I charge my eV at Carrefour?

EV drivers can find charging points at numerous Carrefour locations, particularly in larger cities. These stations usually offer standard and fast-charging options, and some allow you to charge for free while shopping with a Carrefour loyalty card.

Which EV charging companies are the most cost-effective?

In terms of speed and accessibility in EV charging, the companies Eranovum, Endolla Barcelona, and Repsol stand out as the most cost-effective options in the sector. Who follows them in the ranking?

Endolla's charging point in Barcelona.

Which cities have fast charging stations?

Madrid: The capital has a large number of public charging stations, especially in business districts, shopping centers, and parking garages. Companies like Iberdrola and Endesa have been pivotal in expanding the city's network, which also features many fast-charging stations.
