

SolarMax Energy Systems

What energy stations are there in Sri Lanka

Overview

Sri Lanka's electricity demand is currently met by nine thermal power stations, fifteen large hydroelectric power stations, and fifteen wind farms, with a smaller share from small hydro facilities and other renewables such as solar. Most hydroelectric and thermal/fossil fuel-based power stations in the country are.

As of 2015, 1,464 MW of the total thermal installed capacity was from state-owned power stations: 900 MW from , 380 MW from the state-owned portion of .

• • • • .

HydroelectricHydroelectricity has played a very significant role in the national installed power capacity since.
