

## SolarMax Energy Systems

# What is the difference between an energy storage battery cabinet and a battery cabinet

## Overview

---

What is a battery cabinet?

A battery cabinet is a particular type of storage cabinet that reduces the risks associated with lithium-ion batteries. These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells.

Are battery Cabinets based on chemical cabinets?

In this article, we give you answers to these important questions. Many battery cabinets are based on chemical cabinets, also known as EN 14470-1 cabinets or PGS 37 cabinets. These types of cabinets have specific characteristics: They are intended for storage of paints and solvents. They protect the contents from fire starting outside the cabinet.

Why should you have a battery cabinet?

For example, dropping a battery or leaving it in a hot location can result in irreversible damage to the battery cell, which can lead to ignition or explosion. Providing a battery cabinet can reduce these risks by encouraging safe handling and storing practices within your team.

Are battery cabinets fireproof?

The outside of the cabinet becomes glowing hot. On the other hand, you have battery cabinets that are based on fireproof safes, such as the Batteryguard. We designed our cabinets specifically to store lithium-ion batteries safely in them.

What happens if a battery cabinet explodes?

The battery fire breaks out of the closet and spreads to your premises. The doors of the cabinet can flip open if the battery explodes. This releases toxic fumes that escape from the cabinet. The outside of the cabinet becomes glowing hot. On the other hand, you have battery cabinets that are based on fireproof safes, such as the Batteryguard.

## How to choose a battery safe?

The Batteryguard battery safe is the first tested safe and recommended by insurers. An example of a safety cabinet Choose safety and invest in a fireproof battery safe that keeps the battery fire inside the battery safe. Also, consult with your insurer and make a plan where together you assess the risks for your situation.
