What is a power inverter?

A power inverter is a device that converts low-voltage DC (direct current) power from a battery to standard household AC (alternating current) power.

Which power inverter is best?

AIMS Power, PowerDrive and Renogy are among the most popular Power Inverter brands. While those brands are the most popular overall, you will also find a great assortment from Energizer, Cobra and Cummins. How much does a Power Inverter cost?

A typical price for a Power Inverter is \$150 but can range from approximately \$28 to \$1,199.

How do I choose the right battery for my inverter?

Ensure the batteries you choose match the inverter's input voltage. In North America, the electric service coming into your home is 120 volt AC power. If you are in North America, ensure your inverter's output is compatible with 120V service to power your electronics, power tools or small appliances.

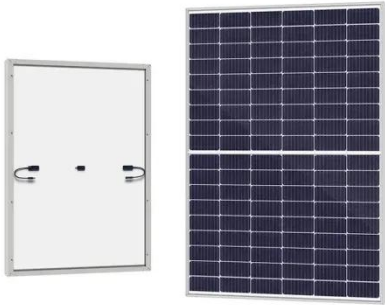

How much does a power inverter cost at Lowes?

A typical price for a Power Inverter is \$150 but can range from approximately \$28 to \$1,199. These Power Inverters are the most popular among Lowe's entire selection. While these are popular, we recommend ensuring that the Power Inverters you consider have the right mix of features and value.

What is a portable power inverter?

A smaller portable power inverter might feature a lower wattage, but they're still capable of delivering a great deal of power. These inverters include features like dual USB outlets or AC outlets, as well as an on/off switch and surge protection.
