

SolarMax Energy Systems

Which is the largest energy storage project in Slovenia

Overview

Slovenia's NGEN first started utilizing Tesla Megapacks for energy storage and grid stabilization in 2019. The country became the first in the Balkin Peninsula to install a grid-scale battery storage unit with the implementation of 126 Tesla Powerpacks capable of a 22.2 MWh capacity. Which country has the largest battery storage system?

The Slovenia-headquartered company was recently in the news for a 20MWh project it commissioned in Austria, which is the country's largest, and it is deploying the largest battery storage systems in neighbouring Slovenia and Croatia, totalling 70MW/140MWh and 50MW/100MWh respectively.

Will Tesla megapacks support 70 percent of Slovenia's energy grid?

A Tesla-powered Slovenian energy company has just launched its third-and largest-Megapack project to date, helping support 70 percent of the country's energy grid. Slovenia's NGEN first started utilizing Tesla Megapacks for energy storage and grid stabilization in 2019.

Where is Ngen deploying the largest battery storage units?

Developer NGEN is deploying the largest battery storage units in Slovenia, Austria and Croatia, and wants to take its model beyond CEE too.
