Overview

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

Do you need a solar inverter?

Solar inverters are a necessary but often forgotten part of a home solar panel system since they convert sunlight into usable electricity for your home appliances. Without a solar inverter, you wouldn't be able to use those solar panels to power your home.

What are the best solar energy storage systems?

Some of the most popular solar energy storage systems are the Enphase IQ, Fortress eVault Max, Generac PWRcell, LG Chem RESU, Panasonic EverVolt, Sonnen Eco, and Tesla Powerwall 3. *Note: The "Cycle Life" values are approximate estimates Why Is Solar Energy Storage Important?

.

How long do solar inverters last?

Most inverters last 10–15 years, but premium brands like Enphase and SolarEdge offer warranties up to 25 years. Inverters are essential for

converting solar panel DC output into home-usable AC power—your solar system won't work without one.

What is the most expensive solar inverter?

EnergySage data from the second half of 2024 shows that solar panel systems with this SolarEdge inverter cost \$2.90 per watt (that includes the inverter and solar panels), making the Home Hub the most expensive inverter on our list.

2. Best voltage performance: Tigo EI Inverter TSI-7.6
